COAST CLIPPINGS.

The dog poisoner is around again in Truckee.

Jack Gilmer is talking of building a flour-mill in Clover Valley south of Wells.

The Denver and Rio Grande is pushing ahead to connect Denver with Salt Lake.

Eureka Con. is now the highest priced stock in the market. It has outstripped Silver King in the race for glory.

Ex-Senator A. A. Sargent, who has been appointed Minister to Berlin, began the work of life as a journeyman printer.

The roads leading out of Sparks are in a worse condition for travel now than at any other time this Winter, owing to the immense snowdrifts.

Nebraska will this fall vote on a constitutional amendment giving women the ballot. Public opinion has in many quarters, and among the most intelligent, been changing to the affirmative of this question.

The Lyon county Times says: People living near the water course of Gold Canyon are advised to take their back yards in at night, as a warm rain on the big snow fall would make a scarcity of real estate in the track of the flood.

The Red Bluff Cause says that Chinamen are poisoning the fish by the use of the well known "fish berries" at the mouth of Reed's Creek. The fish, after eating the berries, die and come to the surface, when they are captured, cleaned and sold to the Caucasians.

A miner at Michigan Bluff put three giant cartridges under a stove in a cabin to thaw, while he resumed his work in the tunnel. They thawed, but the place where the cabin stood is now a little more than a hole in the ground, as stove and cabin both went off with the cartridges.

The family of the Chinese professor, who died at Harvard College a few days ago, passed west last evening, having with them the remains of the dead professor and also the body of their small child, which died at Cheyenne as the train was coming west. The family were on their way to China.

The Tucarors Times Review says: It is stated on reliable authority that a Committee of Safety was organized in this place one evening this week, having for its object the riddance of this community of the petty thieves and robbers which now infest it. We understand that the committee is composed of our leading citizens, who will enforce any and all orders emanating from the proper officers. We will fly shortly.

An Ogden Pilot man dropped into a down-at-the-heel establishment on Fifth street yesterday and solicited an advertisement. "Naw," replied the proprietor of the store (?), "I don't care to advertise," and then he nodded off to sleep again. He doesn't want customers fooling around him, and besides, his shelves wouldn't show up well if denuded of their contents, as the oysters, tomatoes, etc., are all arranged with an eye for the harmonious in color. Don't disturb him.

To Suffering Mankind.

Indeed, I have to ascribe thanks to the miraculous power of St. Jacobs Oil," writes Mr. Theo. Schulze, 601 St. Claude Street, New Orleans, La., that I am to day among the living. That dreaded disease, rheumatism, is an inherited ailment in our family. I lost a brother in 1866. I also have had this painful malady five or six times, each attack lasting from six to ten weeks, and so severe as to entirely disable me and prevent me from performing the slightest service. The many remedies which I used, and the doctors whom I consulted, failed to cure or even so much as relieve my pains. In the Fall of last year, about the month of October, I was again attacked by the disease, which confined me to bed and almost crazed me with the severe pains, and no help at hand, or promise or hope of any relief. I had often heard of St. Jacobs Oil, but had about as much confidence in it as in the other remedies, which was very little. Importuned by friends, I concluded to try the Great German Remedy, and would thankfully say that it brought instant relief. In a short time I was able to sit up, my appetite returned, and the pain vanished. In a short time I was cured. Since that time I have held the St. Jacobs Oil in highest esteem, and recommend it whenever I can find the opportunity. Thanks to those who introduced to the world this blessing to suffering mankind. Without it what would be the condition of the world to-day?

TRUST TO TIME.

It seems to us that the uneasiness manifested by General Rosecrans hardly shows a clear conscience. His extreme sensitiveness to criticism makes it look as if he was afraid to trust to the records for his reputation as a military genius. Upon the slightest reflection he flies into a passion, and resents the mention of his name except in praise. Without going into the merits of the case at all it must strike everyone as a very weak fame that would suffer by an unjust remark from the pen of even a Garfield. Even if Garfield had slandered him, and the records will show that he did not, he could well afford to maintain his dignity, for experience is proving every day that slander only injures the slanderer. Even if a prejudice could be worked up against a decent man by a slandering enemy, it would be short-lived and in the long run would react upon the right head. If a man can be crushed by a lie, he is too weak to be worthy of sympathy, and he had better earn his living with a pick and shovel. If he has staying qualities he can well afford to wait and let the inexorable logic of events, and the eternal principle of right fight for him.

EDITORIAL NOTES.

Under the decision of the Postmaster-General it is understood that all mail contracts in California for which Boone, Salisbury and Cable, members of the straw bond ring of contractors were the lowest bidders, will be withheld and re-advertised, or awarded to the next lowest responsible bidder. Contracts were not to be awarded until March 1st. All of these men were indicted Monday for straw bond frauds. Between them they have nearly one hundred routes in California, besides several thousand in other States, obtained in the same way. The Department holds that their bonds are worthless.

If the Nevada Democracy has any gratitude, they can recognize both eminent services and commanding ability at once by promoting to position the talented editor of the Virginia Chronicle, Arthur McEwen. He has been the most effective Democrat in Nevada for three years. Senator Fair's sack alone excepted, and has never sought personal advantage or asked for office. He would make a good representative for Storey county in the State Senate.

The Index gives the whole thing away. Charley thought nobody knew who wrote it. It says: Mr. Charles Knust, an old citizen of Washoe county, writes a very excellent letter, to the GAZETTE, giving an account of the trip from San Francisco to Ukiah. For plain frozen truth and a good style of descriptive writing, Mr. Knust should wear the medal.

The GAZETTE is meeting with astonishingly liberal support. We can only say to our friends that we shall try to show our appreciation by working constantly to improve, and give more news and a better paper.

OMAHA, March 13. The strikers held a meeting here yesterday afternoon, 3,000 people being present, at which speeches were made exhorting the Union to stand firm, and abusing the authorities. Four ring-leaders in all have been arrested and put under bonds. The strikers are disposed to annoy the military every way and show an ugly temper. The strikers propose a demonstration to-day, and if that passes without a collision with the military, it is believed the worst is over.

The Chinese Bill in the House.

WASHINGTON, March 12.

Representative Page has obtained a promise from the Chairman of the Committee on Appropriations that no appropriation bill will be interposed against the special order by which next Tuesday has been assigned for consideration of the Chinese bill, reported from the Committee on Education and Labor and now on the House calendar. After consulting other members of the Pacific Coast delegation and his colleagues on the Committee, he has therefore arranged with Speaker Keifer to bring this bill before the House on Tuesday at the earliest moment possible, and to demand the previous question either during the same afternoon or at some hour on Wednesday, just as the temper of the House may seem to render most advisable. It is the purpose of leading friends of the bill to allow full opportunity for debate, but so far as can now be seen, there is no probability that any considerable number of members will desire the discussion to be prolonged beyond three or four o'clock of Wednesday afternoon at the latest, and possibly it may be terminated by common consent before adjournment Tuesday. The desirability of substituting the Senate bill for the House measure, in order to avoid reopening the question in the Senate and thus delaying final legislative action on the subject, is fully recognized by Page and his co-adjudicators, and no parliamentary effort will be spared to accomplish the desired purpose or, failing in that, to approximate to it as nearly as possible in accordance with the lines of procedure foreshadowed in these dispatches last Friday. The precise course of action being left for determination by one or another of the alternative contingencies then indicated as likely to arise.

The Omaha Strikers.

OMAHA, March 12.

Another big labor demonstration took place this afternoon at Jefferson square, to which spot the Labor Union men and strikers marched in procession, headed by bands of music. The meeting was attended by about 3,000 laborers and trades unionists. The men of the straw bond ring of contractors were the lowest bidders, will be withheld and re-advertised, or awarded to the next lowest responsible bidder. Contracts were not to be awarded until March 1st. All of these men were indicted Monday for straw bond frauds. Between them they have nearly one hundred routes in California, besides several thousand in other States, obtained in the same way. The Department holds that their bonds are worthless.

A Lord Leaped the River.
WASHINGTON, March 13.

Lord George F. Montagu, of the British Legation at Washington, died shortly before noon yesterday.

It is expected to break above any moment. The whole levee will probably go. Backwater fell over 12 inches today, no doubt caused by the breaking of portions of the dyke, a very large embankment built to prevent the water entering False river. This will fill False river, and certainly cause a break in Jordache levee and inundate the Gross Tete country. It will be impossible to estimate the privations of the people and the loss of stock, crops, etc. The steamer Pat Bonner, with flats has been busy to-day moving cattle, etc., from Point Coupee to Cat Island. Many died en route from exhaustion and want of forage. The track of the West Feliciana railroad, on the levee, which protects the eastern side of town, will have to be raised, as the water is still rising an inch per day, and not many inches to spare. Some malicious person made a small cut in the levee last night about a mile below Carrollton. The cut was closed without damage.

Matters Before Congress.

WASHINGTON, March 12.

The House Committee on Foreign Relations with examine Shiphart Wednesday, and by many it is anticipated that thereafter an investigation of the Chili-Peruvian business on the part of the House will be allowed to flag. A much more searching inquiry is expected of the Senate Committee, which will sit with closed doors. The Senators are in no special hurry to begin one of them this evening, remarking that they might as well await the return of Trescott, as he had, in all probability, been an active diplomatist from the beginning, and had a key to the business, if there was one. The Tariff Commission Bill comes up in the Senate to-morrow, and an effort will be made to bring it up in the House early in the week. Its friends are not sanguine of its passage in either house.

The Disturber's Departure.

CHICAGO, March 12.

Rev. George C. Miln preached his farewell sermon to the congregation of Unity Church, of this city, this morning. The edifice was crowded to overflowing. During his remarks Dr. Miln reviewed the causes which lead to his resignation, and the subsequent request of a large part of his congregation for him to remain, despite the fact that he had no faith, and did not believe in the immortality of man, and denounced in caustic language, Unitarianism as practiced at the present time. He concluded his remarks by saying that he was glad to get out of the pulpit, and that he would not enter it again. He was inoffensive when sober. The occurrence was not generally known in the city last night, but promises greatly to complicate troubles to-day.

More Missionary Work.

WASHINGTON, March 12.

Captain Wm. L. Merry, of San Francisco, has arrived here to promote favorable action on the Nicaraguan canal bill. He will be heard in explanation and advocacy of the projected canal by the Senate Committee on Foreign Relations and also by the House Foreign Affairs Committee at an early date not yet definitely fixed upon.

Pest in the South.

RALPH, N. C., March 12.

In Gaston county of this State the people are continuing to have trouble with the Mormon missionaries, who are said to have captured the Kings Mountain Baptist Church, situated on the battlefield of Kings Mountain, they having made converts of some sixty of the members. Great numbers are flocking to them from the vicinity. Two elders, calling themselves W. C. Burton and J. M. Easton, are engaged in the work of proselytizing. They baptize and receive into the Mormon faith, first requiring all converts to pledge themselves to their doctrines. They have now established a regular church there.

A Dead Sailor.

NEW YORK, March 13.

Commodore John Glasson, on the retired list of the United States Navy, died yesterday. His death was caused by heart disease, aggravated by congestion of the lungs. Commodore Glasson was born in this city. Having a predilection for the sea, he went to Washington, and by his personal untiring efforts, secured an appointment as midshipman in the Navy, February 1, 1823.

The Number to Feed.

MEMPHIS, March 12.

Lieutenant Vedder, detailed for duty in Arkansas to ascertain the extent of suffering caused by the overflow, arrived this morning from Little Rock. He estimates that the Government will have to provide for 20,000 destitute people in Arkansas for 60 days from the 20th inst., as suffering is on the increase and will continue long after the water subsides.

Don't Love the Military.

OMAHA, March 12.

The Militia in the city to protect the non-striking laborers were annoyed this evening by a gathering of men and boys, who threw brickbats at the officers and hit several. A squad of soldiers finally charged on the crowd.

A Hunting Politician.

WASHINGTON, March 13.

Wm. E. Chandler is after Secretary Hunt's place, and openly announces that he will have it.

Schemes Awry.

NEW YORK, March 13.

The Graphic's Washington correspondent says there is a rumor that a promoter of the Bolivia silver mine scheme is Governor McCook of Colo-

rado. It is said also that ex Senator Chaffee and Steve Birkie were in the scheme. Just how far they had progressed when the exposure of Shippard's project threw South America speculations into dispute is not known. It is understood that influential politicians were to be interested in the grant from Bolivia in order to induce Chile to keep her hands off while the company worked the Benanza. The same paper says hundreds of strangers visited the jail in which the murderer Guitteau was confined, yesterday, but were unable to gratify their curiosity because of the orders that no visitors are admitted on Sundays. Guitteau was annoyed at this because he expected to make a large sale of his pictures and autographs.

Dissatisfied Democrats.

NEW YORK, March 13.

A Tribune's Washington special, speaking of the story that Senator Barnum, of Connecticut, is dissatisfied with the choice of Rosecrans as Chairman of the Democratic Congressional Committee, says a friend of Barnum recently said, "I do not think Barnum is taking much interest in politics. He spent \$50,000 in the last campaign, and the result appears to have disgusted him with political affairs, at least temporarily. I don't believe he cares two cents about who is to be the Chairman of the Congressional Committee. I understand that the Chairmanship was offered to Randall and he declined it. My impression is that no one who is qualified for the position is anxious to see it."

A Fatal Charge.

OMAHA, March 13.

The soldiers made a charge on the crowd to drive back them back from the military quarters and several of the assailants were severely injured by bayonets. One of the wounded, named G. P. Armstrong, formerly a machinist, who was wounded in the breast and taken to the guard house supposed to be slightly hurt, has died from the wound. He had been slightly under the influence of liquor and was abusing the soldiers. He was inoffensive when sober. The occurrence was not generally known in the city last night, but promises greatly to complicate troubles to-day.

All Quiet at Omaha.

OMAHA, March 13.

Work was resumed this morning on the contract left by the strikers. An inquest upon Armstrong, the citizen who died last night from a bayonet wound, is in progress. There is less excitement in the city than had been anticipated. The strikers make no demonstration to-day.

Edmunds' Work Made Easy.

WASHINGTON, March 13.

The impression is general that Edmunds will go on the Supreme Bench. The pressure has been very strong on him, and the Judges of the Court have offered to do his circuit work this summer if he will accept.

A Cheap Indian Policy.

WASHINGTON, March 13.

A special says Secretary Lincoln has sent to the Senate a statement showing that the total estimated cost of maintaining troops in the Indian country during 10 years has been \$223,891,364, an average of \$22,900,000 annually.

A Mississippi Cotton Mill Burned.

JANESVILLE, Miss., March 13.

The weaving room in the cotton factory here was burned to-day. Loss \$30,000. Five hundred hands are out of work.

Matters in Siberia.

IRKUTSK, March 13.

Jackson, the Herald's correspondent, started north yesterday. Lieutenant Danenbauer expected to start for St. Petersburg to-day.

A Thin Skin.

CHICAGO, March 13.

All special agree that the Rosecrans-Garfield matter is in great doubt and that the stories are too conflicting at present to give credibility to the Chase letter.

Shortened Her Life.

Murderous Lynchers.

SAN FRANCISCO, March 12.

A Jacksonville, Oregon, special says:

Last night ten or twelve masked men rode into Linkville, where H. C. Laws,

charged with murder, was in custody of the Deputy Sheriff J. F. Lewis and Justice Wright, awaiting examination. The officers were in Greenman's hotel with the prisoner when the lynchers entered the hall and were told to halt. The lynchers refused and Lewis fired a revolver, wounding one of the party slightly. The lynchers returned the fire, killing the Deputy Sheriff and wounding Justice Wright. They then left without taking Laws. The excitement is intense.

BORN.

DU. VAL.—In Reno, February 7th, 1882, to the wife of T. H. Du Val, a daughter.

PERRY.—In Reno, March 10, 1882, to the wife of C. W. Perry, a son.

HAY AND GRAIN PROSPECTS.

The Farmers in Surprise all Looking for Good Times.

The Surprise valley farmers started in the winter with immense quantities of hay. It sold in November for \$3 50 per ton, in the stack. Owing to the large numbers of stock cattle and horses that came there to feed it has gone to \$10 a ton. There is no great danger of a hay famine unless the Spring is very late. If it is, there is plenty of grain that can be fed. Wheat can be bought for a dollar a hundred. Barley is worth five bits. Very few oats are raised. From the amount of snow in the mountains it is judged that the coming season will be a good one for the farmers. Hedges and Mayfield have about four hundred head of beef cattle still unsold. Patterson & Clark have several hundred head. The GAZETTE pumped all this news out of G. W. Raines, of Cedarville, an old friend of the GAZETTE's.

Launching Their New Boat. Some day this week the ladies of Reno will be invited to attend the opening of S. M. Jamison & Co.'s new dry goods store, in Judge Marshall's building, next door to the White House. The new firm starts in with a firm foundation. Mr. Jamison is one of Reno's oldest citizens, and has a reputation second to none for personal integrity and business industry. He is known all over the country east, as well as in the mountains, and has bound all to him by his faithful devotion to duty as a public officer. Mr. Hohenchild is a dry goods salesman by education, and knows all about the ins and outs of his profession. He is here with his family, and proposes to build up a business and a home. He says he intends to make his place neat and attractive and to offer such inducements that those who trade with the firm will get full value received, and hence will want to come back.

A Musical Convention.

Reno has the prospect of a musical convention under the direction of one of America's masters—Prof. H. S. Perkins, of Chicago—who is to pass through here early in April. He was a schoolmate of Prof. Stimson, and has agreed to stop here four days and take charge of the affair. There will be three meetings a day and one or two concerts at the theater. Those who take part and receive instructions from Prof. Perkins will be charged \$2. Those who do not will have to pay an admission fee. Mr. Perkins is an author of reputation, and has spent his life studying this art. He will undoubtedly meet with a generous reception in Reno.

A Snow Storm.

The Truckee Republicans say: It commenced snowing about mid-night Thursday night, and the fleecy flakes continued their steady descent until about 3 o'clock Saturday afternoon, when the storm cleared up, about two feet of snow having fallen in the meantime. An ordinary sized wagon standing in front of our office shows only the top of the seat above the snow, from which residents of the country of "perpetual spring" can readily imagine how far off the season of "ethereal mildness" still lingers.

Moving Home.

Foreman Ash gives notice that the hand engine will be moved to the new quarters on Center street to-morrow at 2 o'clock by Washoe Company No. 2. Members of No. 1 are invited to be present and help to warm up the new house. Hoffman sent down a keg of beer this morning and it will be tapped. Nasby is liable to throw up a box of cigars on this occasion.

The Historian's Relative.

NORTH UNION "SHAKERS."

CLEVELAND, O., Feb. 3, 1880.

H. H. WANNER & Co.—Friends: I take pleasure in saying that I have used your celebrated Safe Kidney and Liver Cure, and that it cured me of Bright's Disease after I was given up to die and all other remedies had failed.

JAMES S. PRESCOTT.

A Good Business. Katz & Henry have a fat contract with the railroad for all the ties they can cut this year at \$11 a thousand feet, board measure.

JOTTINGS.

Everett's groceries are choice. See 50 cent column for money to loan.

There is a telegraph message for Mrs. McGregor.

It arrived from Wadsworth to Dutch Flat last night.

Take a cigar with E. Meyer, next to Manning & Berry's store.

If you want a nice dress, shawl or cloak, look at those in Isaac Barnett's store.

Perry has opened an account at Becker's. The boy weighed eight pounds.

Fresh candies at Nasby's bazaar. Thermometer at 7, 9, 11, 1, 3—34, 43, 46, 46.

Every paper in the State except the GAZETTE has tried its hand on the prime business.

It snowed again last night. The wind rose this morning and piled the new snow up in drifts.

The following brands of flour at J. K. Everett's: Pioneer, Buckeye, Wheatland, Silver Star, Cedarville and Bidwell.

Chas. Knust has a choice lot of mafica ware and is disposing of it for anything he can get. His large stock is going off rapidly.

C. S. Martin gives notice to those who may be indebted to J. C. Hagerman, either by note or book account to pay the same to him.

The bankrupt goods have got to go. Abrahams Brothers have the matter in hand, and they are rolling out the bundles at astonishing prices.

Louis Dean sold Joseph Marzen a car load of thoroughbred cattle Saturday. They will be shipped to Marzen's ranch, at Lovelock, this evening.

The new engine house is nearly finished, and No. 2 will take their machine to her new quarters in a day or two. A meeting to-night at the new house.

A small package, containing some black velvet ribbon, was lost the last of February by the Sisters of St. Dominic. See ad. in 50 cent column and return the ribbon.

W. N. Knox insured the Odd Fellows' building, corner Virginia and Second street, Saturday for \$15,000. Mr. Knox says he has issued \$60,000 in policies since February 1st.

Judge Young sent John Williams over the river this morning for five days on a charge of drunk and disorderly. Williams is the man who has been playing himself off for a Catholic priest.

Isaac Barnett is able to sell dry goods to any one who is ready to buy. His goods are the best to be had for this market and in price and quality will rank with any store in the State of Nevada.

At their meeting on Saturday night the ladies of the Reform Club appointed a committee to see what could be done towards keeping the reading-room open. The committee consists of Hutchins, Holesworth and Cossitt, with Beck as an ex-officio member.

Temperance Reform in Truckee.

TRUCKEE, March 12.

ED. GAZETTE: Prof. Wm. Crowhurst, Grand Lecturer, appointed by the Grand Lodge, has been in Truckee for the last three days, lecturing each evening. As a result of his labors a Band of Hope has been organized with 16 adults and 50 children. At the meeting in the church in the evening, which was crowded, to hear the lecture, 81 names were given for the Good Templars Lodge. Prof. Crowhurst is one of the ablest lecturers in the field. He has a flow of language equal to that of his orators and his illustrations are apt and to the point.

At their meeting on Saturday night the ladies of the Reform Club appointed a committee to see what could be done towards keeping the reading-room open. The committee consists of Hutchins, Holesworth and Cossitt, with Beck as an ex-officio member.

Most Pay Their Taxes.

The State Supreme Court Thursday rendered a decision in the suits which has been before it for years, regarding the Bonanza firm's bullion tax penalty, which amounts to about \$90,000. The payment of the sum by the defendants in the case will place sufficient money in the Store county treasury to run the county on a cash basis the entire year—an event that would have been impossible without it.

A Large Contract.

Abrams Brothers have taken a large contract. They have agreed to find purchasers for two thousand suits of clothes between now and election day, and the bets are that they will do it.

How to Secure Health.

It is strange only one will suffer from derangements, by impure blood and the like, while the rest are well. STILLINGIA, or BLOOD AND LIVER CURE will secure health to the physical organs. It is a strengthening syrup, pleasant to take, and the BEST BLOOD PURIFIER ever discovered, curing SYPHILIS, Syphilis, Malaria, Nervous disorders, Debility, Bilious complaints and diseases of the Blood, Liver, Kidneys, Stomach, Skin, etc.

DR. ROGER'S PAIN PANACEA cures pain in Men and women.

DR. ROGER'S WORM SYRUP instantly destroys WORMS.

A Card.

I will teach, from charge, and furnish all the materials, the process for making, claimed to be genuine oil painting by C. Farry, the Reno canvasser for large portraits to children above 8 years of age taught how to do better than C. Farry knows how to do. Sample of his work on exhibition in his gallery. Call for him to paint in your gallery.

MURRY DUNHAM.

To the Merchants of Reno.

T. R. Zena, Thos. Lord, and Oss: D. Jones came to my place and purchased goods to the amount of \$15,00, on credit, promising to pay the following Saturday. I have discovered about 100 dead beats. Look for them. I have some means, and the like stripe, which I will hand in next month.
